3. Weather forecast. Listening.

Listen to the teacher read you the weather forecast of the USA. Write the information you hear about these cities.

New York: _____

Chicago: _____

San Francisco: _____

Miami: _____

4. Weather forecast. Speaking.

Work with a partner. Look at the examples from exercise 2 and 3. Can you make a similar weather forecast for your country?
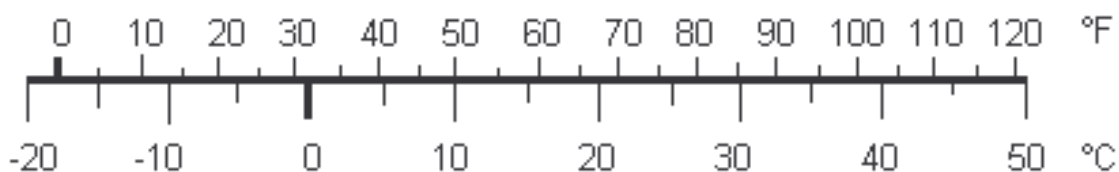

5. Celsius or Fahrenheit?

Today, the temperature is 77 degrees Fahrenheit.
Today, the temperature is 77 degrees Celsius.

In the United States, people say the temperature in Fahrenheit degrees. In many other countries, people say the temperature in Celsius. What do people use in your country?

How to calculate Fahrenheit to Celsius and Celsius to Fahrenheit:

```
   0   10  20  30   40   50   60   70  80   90   100 110 120  °F
  |___|___|___|___|___|___|___|___|___|___|___|___|___|
  |   |   |   |   |   |   |   |   |   |   |   |   |
 -20    -10      0       10      20       30      40      50  °C
```

Fahrenheit = (Celsius x 1,8) + 32
Celsius = (Fahrenheit – 32) / 1,8
