

360° Periscope

Supersize your senses; see over walls, round corners and what's going on behind you.

www.sciencemuseum.org.uk/launchpadeducators

Grab this stuff...

one stop cil

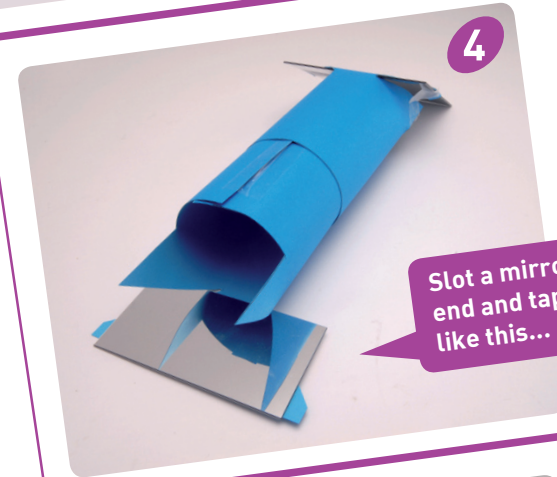

Cut along all the lines on the template till you're left with this...

Roll and tape one half into a tube.

Roll and tape the other half round it... like a telescope.

Slot a mirror into each end and tape in place like this...

Launchpad
