The fashion page: vocabulary, reading and writing tasks

1   Look at the vocabulary for describing clothes. Write the numbers in the correct column. Some words can go in more than one column. The first two are already done.

1 baggy (loose)   8 flowery   15 mini   22 straight

2   Read the following description about fashion for this season. Is it for men or women?

3   Read it again and draw the clothes on the model.

This season, the look is North American Indian. Long hair is back! And not blond like Beckham's but very dark. Long, straight, black hair is best.

Trousers are also long. Not tight, trousers are long and baggy.

Tops are also baggy. They are not tucked in. Shirts and trousers are in natural colours: brown, cream and beige. No blue jeans! No patterns, everything is plain and natural. Material is natural too – cotton and linen.

And shoes are not so important. In fact, try to not wear shoes – barefoot is best! And no accessories - but you can wear some feathers in your hair if you want!
