Digital image-editing tools

Let's discuss

A   Read the text and answer the questions.

> It is very easy to find all sorts of digital images on the internet. There are also many new digital tools and apps which allow you to interact in many ways with the images you find.
>
> A **digital image-editing tool** allows you to add music, video, sound, text, and lots more to your image. This can help you create an interactive picture that is linked to external text, audio, music, and more.

1.   Do you know a digital image-editing tool?

2.   What kind images do you edit? What do you add to them?

Let's analyse

B   Look at the interactive image of Ariana Grande. Answer the questions in groups.

This is Ariana Grande. She's an American actress and singer. She was born in 1993.

She's beautiful, confident, and friendly. She has got brown eyes and long hair.

She is an Italian American and has a close relationship with her grandma.

Arianna has a great sense of fashion and likes to wear dresses and high-heel shoes.

In this picture, she's wearing trendy jeans and a sweatshirt.

Worksheet

1. Why is Arianna Grande famous?

2. What characteristics is the image describing?

3. Which verb form do the people use to describe what Ariana is wearing?

4. Can you see any adjectives of character? Which ones?

> GLOSSARY
> Adjectives of character: adjectives that describe a person's personality or character traits.

Let's do it!

Step 1   Go online and search for an image of a famous person you like. Save the image in your computer for later.

Step 2   Go online and choose a digital image-editing tool or app to edit your photo.

Step 3   Think about what you are going to add to your image (text, audio, music) and get the necessary files and links ready.

Step 4   Upload your photo to your digital image editing tool and add your text, audio or music to it to make it interactive. Use different vocabulary and structures you know.

Step 5   Share the link to your edited image with your teacher and classmates.
