

Digital writing tools

Let's discuss

1 Read the text and answer the questions.

A digital **writing tool** allows you to create written projects and share them easily with others on the web. These writing tools can help you to organize your thoughts and ideas.

Digital writing tools help you to create stories, postcards, letters, descriptions, opinions, notes, essays, diary entries, and projects. Some of them allow you to add images to your work to make it more interesting.

1. What can you use digital writing tools for?
2. Have you ever used any digital writing tools? Which ones did you use?

Let's analyse

2 Look at the poll to ask students what their favourite sport is. Answer the questions in groups.

A Our future predictions by Class 3A

I will be a doctor. I will live in a big house near the beach.

I will travel the world.

I will be a writer. I will read lots of books.

B María García

Her name is María García López. She was born in Pamplona, Spain, on the 16th of July, 1939. She is my grandma.

She went to school in the same city where she was born. After finishing school in Pamplona, she studied economics for three years. She had three children. She loves boleros and ballads.

1. How is text presented in each of the images?
2. Do you think digital writing tools were used to create these images?
3. What is the text on image B about?
4. What is the main tense used in the text in image B?

Let's do it!

Step 1 First decide what type of text you would like to create. Here are some ideas:

- A wall where others can write a short description of their family member.
- A comic talking about your future.
- An invitation for a future event.

Step 2 Go online and search for an appropriate writing tool for the topic you have chosen.

Step 3 Remember to include vocabulary and grammar structures you have learnt so far.

Step 4 Write your text. Include photos or pictures.

Step 5 Once you have finished, share the link to your text with your teacher and classmates.
