Part 2

A. Read. Does Adam describe considerate or inconsiderate behavior?

Think Forward!

I live near a great beach. It's a beautiful place, so a lot of people come here with their families. They have picnics or go for walks with their dogs. The problem is that they often leave a lot of trash on the beach. The trash sometimes gets into the ocean, too, and that's really bad for fish and animals. They should think about the people who are going to the beach after them. They shouldn't litter. They should put their trash in the trash cans or take it home with them. That way, we can all enjoy a clean beach every time we go there!

**Part 3**

**A. Read. How is Padma's family considerate?**

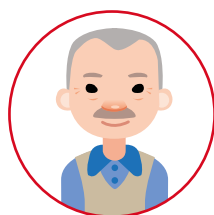

**Think Forward!**

In my family, we have a fun tradition. We think about five things we can do every week to help different members of the family. For example, my grandma lives alone, so sometimes I visit her. Or, sometimes, I take my uncle's dog for a walk, so he can relax in the evening. Other people do nice things for me, too. It's fun to think of creative ways we can help different people!
