

Video-sharing How to create video quizzes using ESLvideo

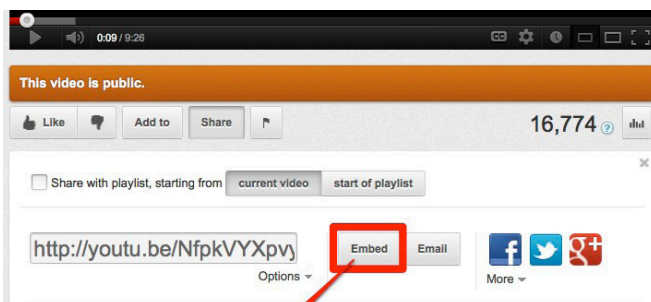

This how-to guide will show you how to create video quizzes using a web-based tool called **ESLvideo**. You can also download a how-to video tutorial from onestopenglish.

Using *video-sharing* will encourage your students to view videos as a learning tool as well as a source of entertainment. Turning a video into an interactive video quiz will also test their listening skills. ESLvideo catalogues many quizzes created by other teachers which you can use with your students or create your own. Best of all, it's quick and easy to do.

1 First, find a video to build your quiz around on www.youtube.com. When you have chosen your video, you need to copy the embed code. You can find this by clicking on **Share**.

2 Then you click on **Embed** and copy the code.

3 Once you have found the video you want to use and copied the code, go to ESLvideo at www.eslvideo.com. This is a simple tool which can be used on any computer. All you need to do is to register on the ESLvideo site. When you have done this, go to **Create a Quiz**.

CREATE A QUIZ Create a Quiz: Step 1 of 2

4 Scroll down the page until you see the start of a form. Paste the embed code you copied from YouTube into the **Video Embed Code** field.

Quiz by: NikPeachey

Title:

Description:

Tags:

For example: Past Tense, WH questions, Directions, etc.

Question for Comments (Optional) Does this video prompt a question students can reply to in the comments box?

Thumbnail Image: 50K max file size. Displays at 100px max width and/or 100px max height. Note: If you're creating a quiz with a YouTube video, copy the title of the video, then paste it into the "SEARCH" field on YouTube. The search results will contain a thumbnail image to save to your desktop and upload here.

Video Embed Code:

Level: Beginning Low Intermediate Intermediate

5 The next thing you should do is upload a small image of yourself. To do this you click on the **Browse...** button above the embed code and navigate to your chosen image.

8 If you have done everything correctly and completed the form, you will get a message and a link to move on to the next stage where you can add the questions to your quiz.

Below your video, you should see an area where you can edit different aspects of the video. Click on **Questions**, then click on **Add a question**.

9 Now you can write your first question and the possible answers.

Add a question.

Question:

Option 1:

Option 2:

Option 3:

Answer (must be identical to correct option):

Send

10 Once you have done this, copy and paste the correct option into the field at the bottom. It's best to copy and paste this as it must be exactly the same. Once you have done this, click on **Send**.

Add a question.

Question:

Option 1:

Option 2:

Option 3:

Answer (must be identical to correct option):

Send

11 To add more questions, repeat the process by clicking on **Question** then **Add a question** again.

When you have added all your questions, click the link at the bottom of the screen which says **click here to view your quiz**. You should now be able to play your video and answer your quiz questions. Make sure you do this to check that the answers are correct.

ESL Video Quiz: Web 2.0 for EFL / ESL Teachers

Questions Transcript Notes

Questions:

Web 2.0 has ...

Made the web more democratic

Given governments more control of the Internet

Made e-commerce more difficult

Web 2.0 allows for more collaboration and sharing on the web

False

True

I don't know

Web 2.0 has made the web a safer place

False

True

I don't know

Web 1.0 was much better for e-commerce

True

False

0 0 Favorite

12 Once you have completed the quiz, click on **See how you did** to view the feedback. At the bottom of the feedback form, there is a field for the student to add their name and a teacher code to send their results to their teacher. This is a great way to track that your students are doing their homework, but you will need to create a code to give to your students.

Web 2.0 allows for more collaboration and sharing on the web
»You answered: False. The answer is: True

Web 2.0 has made the web a safer place
»You answered: False -- which is correct.

Web 1.0 was much better for e-commerce
»You answered: True. The answer is: False

Send these results to my teacher.

14 Scroll down to the bottom of the page and type in your teacher code. It can be your name or anything else that is unique and easy to remember.

Click on **Send** to create your teacher code. Now you can give that code to your students. Each time they finish a quiz, they can enter their name and the code and you will be able to see their results.

Try it out -- Create a teacher code, then take a quiz and send yourself the results.
